A fully updated 2024 156-315.81.20 Exam Dumps exam guide from training expert Dumpleader

Q77. The log server sends what to the Correlation Unit?
* Authentication requests
* CPMI dbsync
* Logs
* Event Policy

Q78. The Event List within the Event tab contains:
* a list of options available for running a query.
* the top events, destinations, sources, and users of the query results, either as a chart or in a tallied list.
* events generated by a query.
* the details of a selected event.

Q79. Both ClusterXL and VRRP are fully supported by Gaia R81.20 and available to all Check Point appliances.

Which the following command is NOT related to redundancy and functions?
* cphaprob stat
* cphaprob -a if
* cphaprob -l list
* cphaprob all show stat

Q80. Selecting an event displays its configurable properties in the Detail pane and a description of the event in the Description pane.

Which is NOT an option to adjust or configure?
* Severity
* Automatic reactions
* Policy
* Threshold

Q81. Joey want to configure NTP on R81 Security Management Server. He decided to do this via WebUI.

What is the correct address to access the Web UI for Gaia platform via browser?
* https://<Device_IP_Adress>
* http://<Device IP_Address>:443
* https://<Device_IP_Address>:10000
* https://<Device_IP_Address>:4434

Q82. How can you switch the active log file?
* Run fw logswitch on the gateway
* Run fwm logswitch on the Management Server
* Run fwm logswitch on the gateway
* Run fw logswitch on the Management Server

Q83. Sticky Decision Function (SDF) is required to prevent which of the following? Assume you set up an Active-Active cluster.
* Symmetric routing
* Failovers
* Asymmetric routing
* Anti-Spoofing

Q84. Which configuration file contains the structure of the Security Server showing the port numbers, corresponding protocol name, and status?
* $FWDIR/database/fwauthd.conf
* $FWDIR/conf/fwauth.conf
* $FWDIR/conf/fwauthd.conf
* $FWDIR/state/fwauthd.conf

Q85. What information is NOT collected from a Security Gateway in a Cpinfo?
* Firewall logs
* Configuration and database files
* System message logs
* OS and network statistics

Q86. At what point is the Internal Certificate Authority (ICA) created?
* Upon creation of a certificate.
* During the primary Security Management Server installation process.

* When an administrator decides to create one.
* When an administrator initially logs into SmartConsole.

Q87. Which command is used to obtain the configuration lock in Gaia?
* Lock database override
* Unlock database override
* Unlock database lock
* Lock database user

Q88. In ClusterXL Load Sharing Multicast Mode:
* only the primary member received packets sent to the cluster IP address
* only the secondary member receives packets sent to the cluster IP address
* packets sent to the cluster IP address are distributed equally between all members of the cluster
* every member of the cluster received all of the packets sent to the cluster IP address

Q89. Which SmartConsole tab is used to monitor network and security performance?
* Manage Setting
* Security Policies
* Gateway and Servers
* Logs and Monitor

Q90. What is required for a site-to-site VPN tunnel that does not use certificates?
* Pre-Shared Secret
* RSA Token
* Unique Passwords
* SecurelD

Q91. Which feature is NOT provided by all Check Point Mobile Access solutions?
* Support for IPv6
* Granular access control
* Strong user authentication
* Secure connectivity

Q92. Which of the following Check Point commands is true to enable Multi-Version Cluster (MVC)?
* Check Point Security Management HA (Secondary): set cluster member mvc on
* Check Point Security Gateway Only: set cluster member mvc on
* Check Point Security Management HA (Primary): set cluster member mvc on
* Check Point Security Gateway Cluster Member: set cluster member mvc on

Q93. How would you enable VMAC Mode in ClusterXL?
* Cluster Object -> Edit -> ClusterXL and VRRP -> Use Virtual MAC
* fw ctl set int vmac_mode 1
* cphaconf vmac_mode set 1
* Cluster Object -> Edit -> Cluster Members -> Edit -> Use Virtual MAC

Q94. Which of the following cannot be configured in an Access Role Object?
* Networks
* Machines
* Users
* Time

Q95. Which Queue in the Priority Queue has the maximum priority?

* High Priority
* Control
* Routing
* Heavy Data Queue

Q96. What command can you use to have cpinfo display all installed hotfixes?

* cpinfo -hf
* cpinfo -y all
* cpinfo -get hf
* cpinfo installed_jumbo

Q97. What will SmartEvent automatically define as events?

* Firewall
* VPN
* IPS
* HTTPS

Q98. Sieve is a Cyber Security Engineer working for Global Bank with a large scale deployment of Check Point Enterprise Appliances Steve’s manager. Diana asks him to provide firewall connection table details from one of the firewalls for which he is responsible.

Which of these commands may impact performance briefly and should not be used during heavy traffic times of day?

* fw tab -t connections -s
* fw tab -t connections
* fw tab -t connections -c
* fw tab -t connections -f

Q99. When running a query on your logs, to find records for user Toni with machine IP of 10.0.4.210 but exclude her tablet IP of 10.0.4.76, which of the following query syntax would you use?

* Toni? AND 10.0.4.210 NOT 10.0.4.76
* To** AND 10.0.4.210 NOT 10.0.4.76
* Ton* AND 10.0.4.210 NOT 10.0.4.75
* “Toni” AND 10.0.4.210 NOT 10.0.4.76

Q100. Which Operating Systems are supported for the Endpoint Security VPN?

* Windows and x86 Solaris
* Windows and macOS computers
* Windows and SPARC Solaris
* Windows and Red Hat Linux

Q101. The Security Gateway is installed on GAIA R81. The default port for the Web User Interface is _____.

* TCP 18211
* TCP 257
* TCP 4433
* TCP 443
